

# Find your “Primary Care Doctor”

In order to provide appropriate medical care according to the patient's condition, we collaborate with local medical institutions and refer patients whose condition has stabilized or who require continuous treatment and follow-up to their local family doctors

## Benefits of having a primary care doctor

- 01 Nearby medical attention
- 02 Shorter waiting time
- 03 Promote daily health care
- 04 Continual medical treatment
- 05 Referral to specialized hospitals as needed

What’s “Primary Care Doctor”? (PCD) PCD watches you and your family’s health. Ask health concerns easily.
